ANY HOSE | ANY LENGTH | ANY TIME

RELIABLE
INDUSTRIAL PRODUCTS CO.

A team driven to provide quality hose solutions through ingenuity, passion and commitment.

LPG - Few fuel sources match the heat output of energy-rich LP Gas. Often sold as butane, propane or a mixture of the two, LPG is found across many markets including agriculture, recreation, automotive (autogas), industrial, construction, and fish and wildlife management. LPG is a particularly cost-effective and efficient way to heat rural and off-grid homes. The chemical industry relies on LPG for the synthesis of olefins such as ethylene and propylene. Whether your need is bulk transfer to tank truck cars and bobtail trucks, or for residential fill-up canisters and storage tanks, **we have you covered!**

SERIES 75 - Butane-Propane Thermocure Hose

Smaller diameter hose for transfer from bulk tanks, cylinders and bobtail trucks to home storage tanks. Pin-pricked to permit gas diffusion.

TUBE - Synthetic Nitrile Rubber (NBR), RMA Class A

COVER - Smooth NBR/PVC (CM, RMA Class B for 3/4"-1")

TEMP RANGE - -40 °F to 180 °F

AVAILABLE SIZES (ID) - 1/4", 3/8", 1/2", 3/4" & 1"

Stainless Steel Braided Corrugated Metal Hose

Gas tight and made for higher pressure situations, this robust hose is excellent for gas and liquid transfers alike.

HOSE - Grade 321 Stainless Steel

BRAID - Grade 304 Stainless Steel

*double braiding available for increased pressure rating

TEMP RANGE - Max temperature is 1500 °F

FITTINGS - Wide variety of custom and standard fittings

VACUUM - Hose will maintain shape under full vacuum

AVAILABLE SIZES (ID) - We stock 1/2" through 4" and can source up to 12" ID.

WE STOCK A FULL LINE OF BRASS, ALUMINUM, CARBON STEEL AND SS FITTINGS
